REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-4, 7-16 and 19-24 are allowable because none of the prior art of record discloses light output means formed in an upper surface of a plate-like member by a repetitive structure of prismatic structures each having an optical path changing face and a long side face, the prismatic structures arranged at intervals of a pitch of from 50 μm to 1.5 mm, the optical path changing face is formed of a slope inclined downward at an inclination angle in a range of 35-48 degrees with respect to a reference plane of a lower surface of the plate-like member, each of the long side faces is made of slope inclined at an angle range of 0-10 degrees with respect to the reference plane, a difference between inclination angles of any two long side faces is not larger than 5 degrees, a difference between the inclination angles of adjacent ones of the long side faces is not larger than 1 degree, and a projected area of the long side faces on the reference plane is not smaller than 5 times as large as that of the optical path changing faces on the reference plane, an adhesive layer having a refractive index lower than that of the plate-like member, and an anti-reflection layer made of a circular polarizer and bonded to the lower surface of the plate-like member through the adhesive layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
